CHAMBER
OF COMMERCE

[HB17-1090 Advanced Industry Investment Tax Credit Extension](#)/Rep. Tracy Kraft-Tharp (D), Rep. Jim Wilson (R), Sen. John Kefalas (D) and Sen. Bob Gardner (R)

The Chamber supports HB17-1090. The Chamber supported the original advanced industry investment tax credit, enacted in 2014, because we know diversification of our key industries is interrelated with our economic success. These investments in advanced technology by companies in Colorado help grow our advanced manufacturing; aerospace; bioscience; electronics; energy, natural resources and cleantech; information technology; and infrastructure engineering industry sectors.
