[SB17-003 Repeal Colorado Health Benefit Exchange](#)/Sen. Jim Smallwood (R) and Rep. Patrick Neville (R)

The Chamber opposes SB17-003. The Chamber, along with more than 100 diverse stakeholders as part of the [Colorado Health Policy Coalition](#), has identified a [set of principles](#) that we urge Congress to consider when examining a replacement plan for the Affordable Care Act (ACA). We oppose a repeal of the ACA without a clear replacement because of the uncertainty and potential cost increases a repeal without replacement would create for businesses. Additionally, it is premature to consider legislation such as this without more clarity and direction from the federal government as to where national health care policy is headed.
