**Public Policy Alert: Denver Metro Chamber of Commerce  
releases statement on HB 1279**

DENVER—The Denver Metro Chamber of Commerce released the following statement regarding House Bill 1279:

“We are so grateful for the leadership and compromise shown by Reps. Garnett, Saine, Wist and Speaker Duran. They've set an example of how to work together with a broad coalition to find areas of agreement and make progress. Our members see value in how this bill helps ensure homeowners are informed and able to resolve issues without having to resort to costly and time intensive litigation. We support those advancements and therefore support this bill as proposed to be amended. We also recognize there is still work to do and we are committed to continuing that work so that more employees can own a home, put down roots and thrive in Colorado,” said Denver Metro Chamber of Commerce President and CEO Kelly Brough.
